

AGRICULTURE - AGRICULTURAL EDUCATION, ASSOCIATE OF ARTS (532)

About Our Program

This program is intended to provide the first two years of a 4-year baccalaureate program and includes the general education, agriculture, science, and math courses required of the transfer student.

Nature of Work and Employment

Agricultural educators prepare students to be successful in their professions and offer a lifetime of informed choices in global agriculture, food, fiber and natural resources systems. Careers in agricultural education develop engaged citizens who understand the importance of the agricultural industry to our world, while teaching them technical skills in all areas of agriculture. In addition to secondary and postsecondary education, educators can work in public service for private or public divisions as specialists in education outreach and curriculum development. Agricultural education programs develop student potential for leadership, personal growth and career success through investigations in science, math, history, technology and legislation related to agriculture. Some examples of careers within agricultural education are listed below.

- Agriculture Teacher
- College Recruiter
- Extension Faculty
- Career Counselor
- Agriculture Journalist
- Ag in the Classroom Coordinator
- College Professor
- Radio/Television Broadcaster

Special Considerations

The listed coursework is a recommendation only. Students should check with a student advisor for HCC graduation requirements. **Students must meet with an advisor to ensure that the special requirements of the department and institution to which they plan to transfer are met.** Colleges and universities have specific requirements for transfer students.

Requirements

Associate of Arts Requirements

Students must meet all requirements for the Associate of Arts degree (<https://catalog.highland.edu/programs-available/aa-requirements/>) in

order to graduate from Highland Community College. For more information, please see your advisor.
